

LANE LINE CHANGE: SHORT COURSE TO LONG COURSE

Purpose: Outline the policy and procedures for conducting a lane line change from short course configuration to long course configuration in the 50Meter competition pool

Scope: This policy applies to all UGA Recreational Sports employees in the area of Aquatics

Policy:

- I. As necessary, Aquatics staff members will change the pool from short course configuration to long course configuration.
- II. A total of 14 lane lines are needed to achieve the long course configuration. In addition, 7 lane line connectors are needed, which can be found in the lane line storage closet.

Procedure:

- I. To change the configuration of the pool from short course to long course:
 - a. Retrieve empty lane line reels from lane line closet
 - b. Retrieve 7 lane line connectors from the lane line closet
 - c. Retrieve short connector hooks, located in the storage closet next to the Lifeguard Office
 - d. Loosen all short course lane lines currently in the pool.
 - e. Unhook all lane lines from side of the pool and move lane lines to the hooks located on each bulkhead
 - f. Connect lane lines to a lane line connector
 - g. Connect lane lines to hooks on both bulkheads. Tighten to desired level
 - h. Repeat step C-E for remaining 6 lane lines
 - i. Remove extra lane lines from the pool and place on lane line reels
 - j. Return lane line reels to lane line storage closet
 - k. Double check lane line tightness on all 7 lanes
