E. DEFINITIONS
a. **Pull** – Initial play of game where one team throws to the other. Also preformed after each goal.

1. If the disc initially hits and remains in-bounds, it is put into play where it comes to rest or is stopped.

2. If the disc initially hits in-bounds and then becomes out-of-bounds before being touched by the receiving team, it is put into play at the spot on the playing field proper (i.e., excluding the end zones) nearest to where it first crossed the perimeter line to become out-of-bounds.

3. If the disc initially hits in-bounds and then becomes out-of-bounds after being touched by the receiving team, it is put into play at the spot on the playing field nearest to where it first crossed the perimeter line to become out-of-bounds.

4. If the disc initially hits an out-of-bounds area, the receiving team may put the disc into play:
   a. at the spot determined;
   b. after signaling for a brick or middle by fully extending one hand overhead and calling brick or middle before gaining possession of the disc, either at
      i. the brick mark closest to the end zone that the receiving team is defending if brick was called, or
      ii. the spot on the long axis of the playing field proper nearest to the spot determined by if middle was called.
     
   ii. If the pull is caught, the disc is put into play at the spot on the playing field nearest to where it was caught.

   iii. If a player on the receiving team touches the pull before it hits the ground and the disc then hits the ground, it is considered a dropped disc and results in a turnover.

b. **Brick** – A brick is any pull that lands out of bounds, untouched by the receiving team.

c. **Brick Mark** – The mark on the field where play starts if a brick occurs.

d. **Change of Possession** – When a pass is not completed (e.g. out of bounds, drop, block, interception), the defense immediately takes possession of the disc and becomes the offense.

e. **Out of Bounds** – Play is out of bounds when a player in possession of the disc or the disc itself contacts an area out of bounds.
   i. The field line is considered out of bounds.
   ii. The player who gained possession as a result of an out of bounds turnover has the option of starting play at the Brick mark or as close to the point of lost possession as possible.

f. **Play Out of Bounds** – The disc may “float” out of bounds in a throw, as long as it returns to inbounds before a player catches it.
   i. A player may run out of bounds to make a play as long as the disc is caught in-bounds.
   ii. If a player’s momentum carries him/her out of bounds but the catch was made while in contact with in-bounds, the disc is still in play. One foot is considered contact.

g. **Turnovers** – Any drop, block, interception, out of bounds play, or marker’s stall-count to 10 results in a turnover of possession.

h. **Drop** – A player fails to catch the disc and it falls to the ground. If deflected off one player and caught by another, the disc is still in play.
   i. **Block** – The defensive player knocks the disc to the ground before the offensive player catches it.

j. **Interception** – The defensive player intercepts a pass meant for the offensive player.

k. **Call** – A call is anytime a player announces a foul or violation.

l. **Traveling** – When a player walks with the disc in hand. A player is only allowed 2 to 3 steps after catching a pass (this is a violation).

m. **Pick** – There are three requirements for a pick to be in occurrence:
   i. The defender must be within 10 feet of the offensive player.
   ii. They must be playing an active defense (picks do not typically occur in the zone, but they can).
iii. A player must obstruct the defender from taking the shortest route to their assignment (someone just standing near the path you want to take is not a pick).

F. THE GAME
   a. The game will begin with one team flipping the disc and another team calling up or down. The winning team will have the choice of throwing or receiving, or which end to defend. The opposing team will be given the other choice.
   b. Each point begins with both teams lining up on the front of their respective end zone line. The defense throws (pulls) the disc to the offense.
      i. If the disc is not caught, hits the ground, and remains inbounds, play starts from the initial hit.
      ii. If the disc is not caught and hits the ground but moves out of bounds before being touched by the receiving team, play begins from the nearest spot where the disc crossed the line.
      iii. If the disc goes out of bounds after being touched by the receiving team, play starts nearest the point where the disc crossed the line. There is no turnover.
      iv. If the pull is caught and then dropped the result is a turnover.
   c. Throwers may pivot and throw in any direction, but not travel with the disc. A travel is defined as three or more steps in any direction.
   d. Throwers have 10 seconds with the disc to attempt a throw and the defender is required to keep the stall count.
      i. The stall count will be kept, out loud, at the pace of 1-Mississippi. (Ex: “Stall 1, stall 2, stall 3…”)
      ii. A fast count can be called if this policy is not upheld, at which point the count will re-start.
      iii. The distance of the defender must be at least 1 disc in diameter. Hands and arms may not be extended in this distance. If a player is too close, a foul may be called and the count re-starts.

G. VIOLATIONS
   a. Violations or fouls must be called at the time they occur in order to be enforced. If not called immediately, the foul cannot be enforced.
   b. The following violations will result in a change of possession:
      i. An attempt to throw the disc is not made within the 10-second stall-count.
      ii. The disc is handed to another player, not thrown.
      iii. A time-out is called when none remain.
      iv. During a pull, a player is offside. Meaning, a player is not behind their end zone line at the time of the pull. This will result in a re-pull.
      v. Any player setting a pick
      vi. A player uses an unfair act to block or catch a pass
      vii. Any player may stop a rolling or sliding disc, but advancing it in any direction is a violation.

H. FOULS
   a. A foul is the result of physical contact between opposing players that affects the outcome of the play.
   b. All fouls lead to stoppage of play. All players must return to the same position occupied at the time of the foul for play to restart.
   c. If a foul occurs in the end zone, the player fouled gains possession on the end zone line nearest the infraction.
   d. No player may take the disc away from another player.
   e. A player may not block an opponent from moving into an unoccupied space.
   f. The marker may not make contact with the thrower.
   g. A player may not set a “pick” as defined above.
   h. If a player contacts an opponent while the disc is in the air and thereby interferes with that opponent’s attempt to make a play on the disc, that player has committed a receiving foul. If the call is uncontested, the fouled player gains possession at the spot on the playing field closest to the spot of the infraction. If the foul is contested, the disc reverts to the thrower.
   i. If two defensive players are within ten feet of the throwing actively guarding the thrower then this is a “double team”. The thrower is allowed to say “double team” and one of the defenders must drop out of ten foot reach of the thrower, and the stall count resets to 0.
